

**BRITISH MODEL FLYING ASSOCIATION**  
**2016 PAYLOAD CHALLENGE 2 (QUANTITY)**  
**RULES ADDENDUM**

Following the release of the 2016 rules brochures a minor error in wording has been identified in the Challenge 2 (Quantity) rules.

Please note the following for clarity:

**Current rule wording:**

Q 6.10 Subsequent to each team's presentation, aircraft details will be recorded, this will include a physical check that the total wingspan does not exceed 1500mm. A safety and airworthiness inspection will also be conducted at this time to enable teams to address any item requiring attention before flight.

**Replacement rule wording:**

Q 6.10 Subsequent to each team's presentation, aircraft details will be recorded. A safety and airworthiness inspection will also be conducted at this time to enable teams to address any item requiring attention before flight.

**Reason:**

The reference to the previous wingspan limit of 1500mm was left in the rules in error.

For the 2016 Challenge there is no maximum wingspan limit.
